ENTWICKLUNG

- **Product and service portfolio** for **stationary, mobile and energetic automation** and **applications**
- **Engineering services** in **research, development, prototype construction** as well as for **small and large series production**
- Cross-industry **know-how** for **automotive, testing/vehicle/air/rail/building/energy/measurement/control** and **regulation technology**
- **Realization** of customer-specific **solutions** and **custom-made products** as well as **modifications** and **modernizations**

CuroConceptus[®] (lat.)
„We take care of your concepts“

Our founders, shareholders and managing directors

Bernhard Müller

Michael Wißbach

**Dipl.-Ing.
Bernhard Müller**

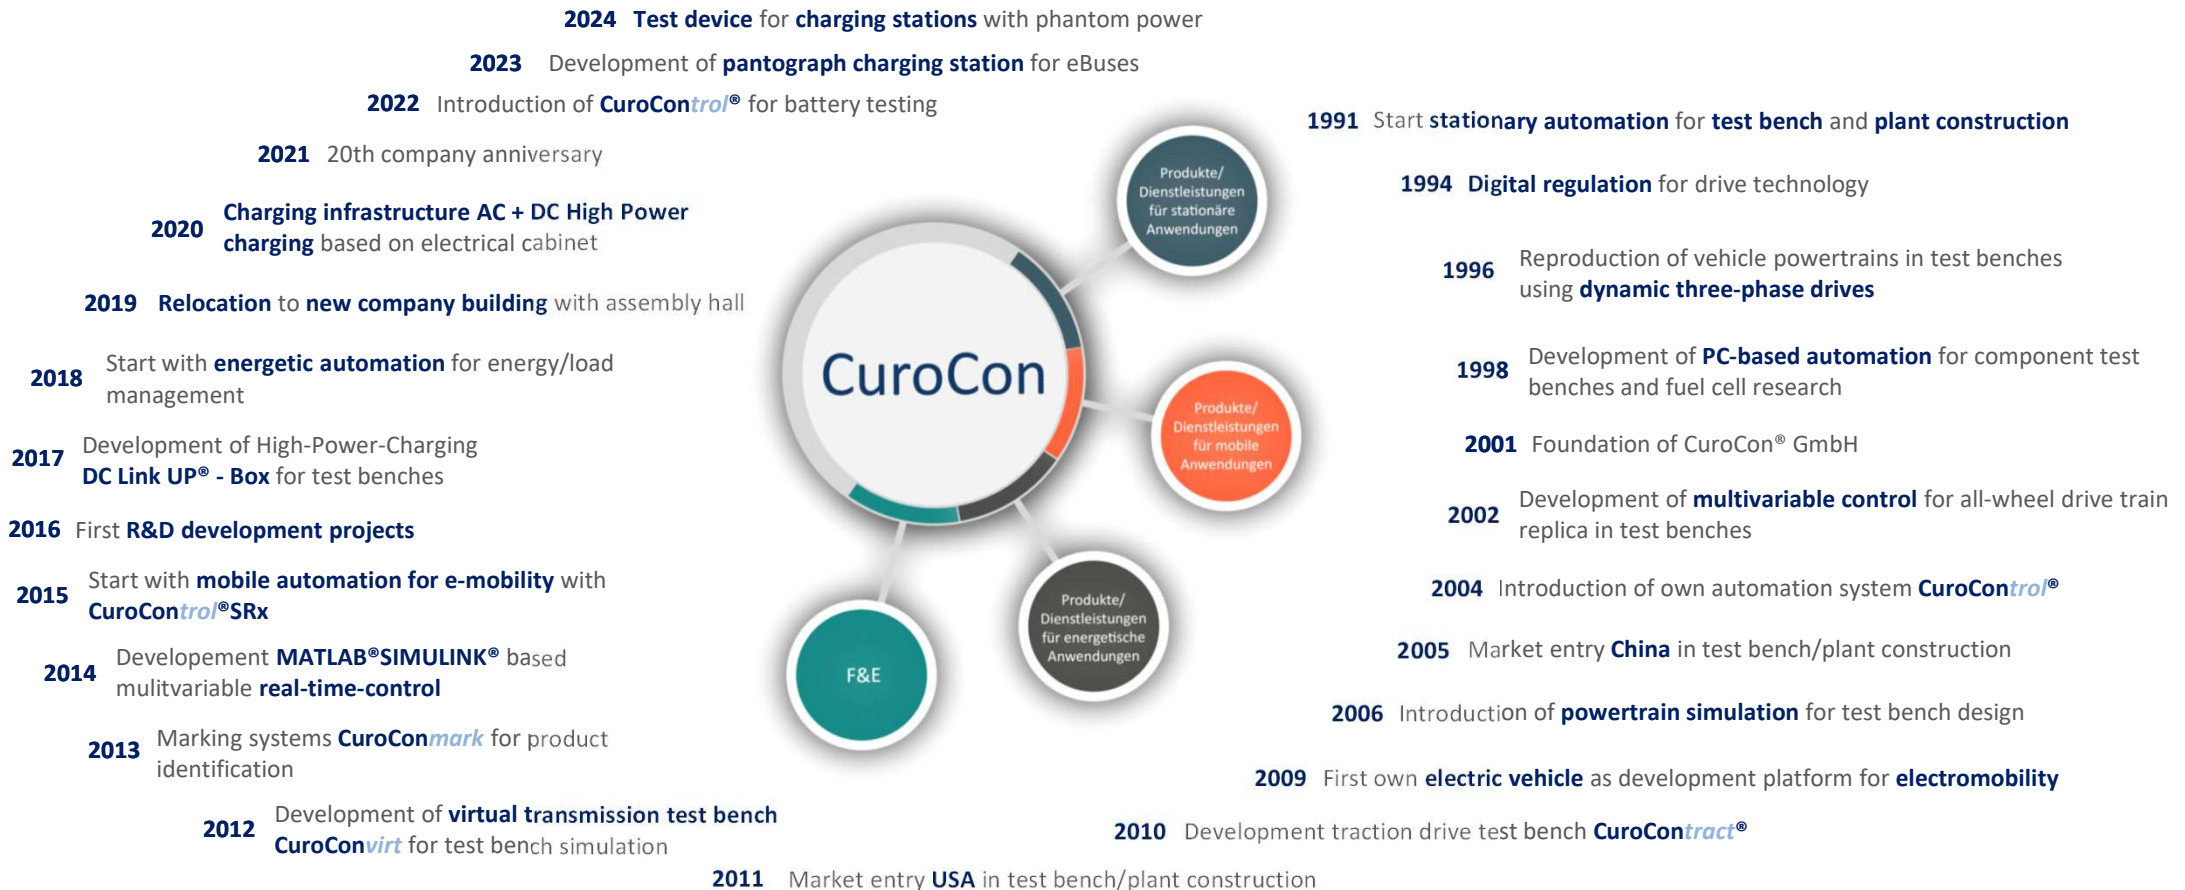

**Dipl.-Ing.
Michael Wißbach**

Our location

Gernsheimer Str. 3 – 64673 Zwingenberg – Germany

„More than 30 years of experience in electrical engineering & automation“

Extract from our customer list

Stationary automation

- Applications in test bench and plant construction in the field of **drive line** and **chassis technology** as well as **braking, driving safety systems** and **battery testing**
- Automation of **fully automated series test benches** for automatic car transmissions as well as **development** and **prototype test benches** on **CuroControl®** basis
- **CuroControl®** extension for **hybrid** transmission **functionalities** and **battery test benches**

engineering & automation
wir sorgen für ihre konzepte

Source: Continental Automotive Systems

Quelle: ZF Friedrichshafen AG

Mobile automation

- Applications in **e-mobility** and for the **electrification** of **vehicles + commercial vehicles**
- Transfer of **know-how** from **electromotive powertrain replica** in **plant engineering** to **onboard** control/regulation systems (**ECU**)
- **Driver information** and **operating systems** with extensive functions and interfaces
- Integrated **safety functionality**, connection to **electronic braking systems (EBS)**
- **Data recording** of relevant vehicle parameters
- Service interface for **remote maintenance/ diagnostics**

Quelle: FRAMO

Quelle:
CARVIA

Energetic automation

- Applications in **energy/charging technology** incl. **load/energy management** in combination with **renewable energy generation** and **storage**
- **Charging infrastructure** for **factory/ company premises** and **charging locations** incl. associated **load/energy management**
- **Charging technology** for electric and hybrid vehicles/commercial vehicles
- **Charging controller** for reliable **communication** with the **electric vehicle**
- **Measuring** and **testing technology** for **charging infrastructure** and **energy meters**

R&D - projects

- **evTrailer2** - Electrified truck trailer for cost, fuel, emission reduction with self-sufficient shunting capability <https://evtrailer.de>

Gefördert durch:

aufgrund eines Beschlusses des Deutschen Bundestages

- **Effkon** - Efficient heat storage and energy generation system for thermal conditioning of buildings

- **Buffered-HLL** - Network-oriented, cost-efficient high-performance charging system for mid-sized commercial public transport in suburban areas

Markets and Customers

New markets/requirements

E-mobility

Transport-/
logistic industry

Aviation and railway industry
(Rosen Group ...)

Automotive industry
(ZF, CAS, Magna Steyr, Atesteo, Lyric ...)

Building, load and energy management
(charging infrastructure ...)

R&D - Universities and research institutions
(TU Darmstadt, TU Kaiserslautern, Fraunhofer Institute ...)

Networking

Automotive Cluster RheinMainNeckar

- **CuroCon** develops as a **cooperation partner** new ideas and products for the automotive industry

Quelle: IHK Darmstadt

AUTOMOTIVE CLUSTER
 Rhein Main Neckar

Cluster Elektromobilität Süd-West

- **CuroCon** designs as a **network partner** in **working groups** and **projects** the further development in **e-mobility**

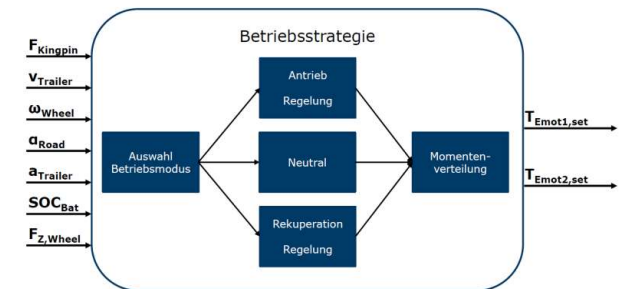

Quelle: ARKIRA fotografie

elektromobilität süd-west

Research and development projects

- **CuroCon** is a **consortium partner** in publicly funded projects on **e-mobility** and **energy efficiency**

Gefördert durch:
 Bundesministerium für Wirtschaft und Klimaschutz
 aufgrund eines Beschlusses des Deutschen Bundestages

Quelle: evTrailer

„We create e-*mobility*!“

- **Actively** creating **the future** and developing/promoting **innovative technologies**
- Proprietary plug-in hybrid and e-vehicles for **practical experience** in **e-mobility**
- **Experience reports** and **exchange of experiences** also on the Internet
